E*TRADE FINANCIAL CORPORATION REPORTS BEST QUARTERLY EARNINGS IN COMPANY'S HISTORY WITH \$0.17 PER SHARE

- Earned \$0.17 per share on both a GAAP basis and from Ongoing Operations⁽¹⁾
- Raised guidance for 2003 to between \$0.40-\$0.48 per share on a GAAP basis or \$0.56-\$0.58 per share from Ongoing Operations
- Reported \$398 million in Net Revenues, a 4 percent increase over last quarter and a 21 percent increase over the year ago period
- Ended third quarter with Cash & Equivalents of \$990 million and Free Cash⁽²⁾ totaling \$530 million, a \$78 million increase over last quarter's Free Cash
- Increased Total Daily Average Revenue Trades by 13 percent quarter over quarter and 49 percent year over year
- Increased margin debt balances 23 percent quarter over quarter to \$1.5 billion at quarter end
- Generated \$2.4 billion in direct Retail Mortgage Originations, with ending pipeline declining to \$500 million

MENLO PARK, Calif., October 15, 2003 – E*TRADE FINANCIAL Corporation (NYSE: ET) today announced results for its quarter ended September 30, 2003, reporting GAAP net income of \$61 million, or \$0.17 per diluted share, compared to net income of \$21 million, or \$0.06 per share, in the same quarter a year ago. The Company's third quarter GAAP results include a \$41 million realized gain in its corporate equity investment portfolio. This gain represents a strategic rebalancing decision to reallocate the funds to support growth initiatives in other parts of the business. In addition, GAAP results reflect \$47 million in previously announced restructuring charges and other exit activity. Net income from ongoing operations was \$63 million, or \$0.17 per diluted share, compared to \$43 million, or \$0.12 per share, in the same quarter a year ago. The Company reported net revenues for its quarter ended September 30, 2003, of \$398 million, a 21 percent improvement over the same quarter a year ago.

E*TRADE FINANCIAL Results for the Quarter Ended September 30, 2003 Page 2

The Company increased its 2003 GAAP earnings guidance to between \$0.40 and \$0.48 per share from a previous range of between \$0.22 and \$0.27 per share. In addition, management raised and narrowed the range for expected 2003 earnings from ongoing operations to between \$0.56 and \$0.58 per share from its previous expectation of \$0.52 to \$0.57 per share.

"We have recorded the best quarterly results in the Company's history," said Mitchell H. Caplan, Chief Executive Officer, E*TRADE FINANCIAL Corporation. "The strength of our model allowed us to capitalize on the rapidly changing market environment, validating E*TRADE FINANCIAL as a franchise driven to create sustainable long-term value."

Other selected highlights from the third quarter of 2003:

- DART's from the US customer segment increased 8 percent sequentially and 42 percent year over year to 75,000
- International DARTs increased 24 percent to 8,600 per day and more than doubled versus the year ago period
- Correspondent mortgage loan originations increased 33 percent to \$1.4 billion
- Operating margin from ongoing operations improved to 28 percent from 24 percent in the prior quarter

"Growing confidence in a US economic recovery kept investors engaged during what is usually a seasonally slow quarter," said R. Jarrett Lilien, President and Chief Operating Officer, E*TRADE FINANCIAL Corporation. "The leverage we are able to gain from the increased trading activity allowed us to further monetize our increased operating efficiencies. The steady recovery in the equity markets and positive activity trends among our customers give us greater confidence that the retail investor has returned to the market."

In late September, the Company introduced the E*TRADE FINANCIAL Sweep Deposit Account. The Sweep Account provides the same ease of use and functionality as current options, while also giving brokerage customers a FDIC insured account yielding improved rates. "The introduction of our Sweep product is a true win for customers and for the Company, providing improved rates for customers while creating a cost-efficient source of funding for the Bank. The Sweep product is part of our plan to increase interest rate spread to 150 basis points this quarter," continued Mr. Lilien.

In the third quarter, the Company substantially completed the facility restructuring initiative that it began in second quarter of 2003. "Through these additional steps, we are positioned to realize our projected \$47 million, or \$0.08 per year, in annualized savings," said Mr. Caplan. "We look forward to the continuing opportunity to showcase the increased efficiencies in our model and demonstrate the Company's ability to deliver strong results in varying economic environments."

"Continuing our commitment to improve the transparency of our reporting," concluded Mr. Caplan, "I am pleased to announce that beginning in the first quarter of 2004, we will report earnings on a GAAP basis, eliminating our pro forma ongoing EPS reporting.

E*TRADE FINANCIAL Results for the Quarter Ended September 30, 2003 Page 3

We intend to provide 2004 guidance in December with the release of our monthly metrics report."

Historical monthly metric data from January 2003 to September 2003 can be found on the E*TRADE FINANCIAL investor relations site at <u>www.etrade.com</u>.

About E*TRADE FINANCIAL

The E*TRADE FINANCIAL family of companies provide financial services including brokerage, banking and lending for retail, corporate and institutional customers. Securities products and services are offered by E*TRADE Securities LLC (Member NASD/SIPC). Bank and lending products and services are offered by E*TRADE Bank, a Federal savings bank, Member FDIC, or its subsidiaries.

SUPPLEMENTAL INFORMATION AND ENDNOTES

Explanation of Non-GAAP Measures and Certain Metrics

In order to better assess the Company's financial operating results, management believes results from ongoing operations, ongoing operating margin, free cash, EBITDA and interest coverage are appropriate measures of evaluating the operating and liquidity performance of the Company.

⁽¹⁾*Results From Ongoing Operations, Ongoing Operating Margin*

Results from ongoing operations exclude gain or loss on early extinguishment of debt, amortization of other intangibles, acquisition-related expenses, the gain or loss on investments, unrealized losses on venture funds, the fair value adjustments of financial derivatives related to the impact of Statement of Financial Accounting Standards (SFAS) No. 133, executive agreement, restructuring and other exit activity, the cumulative effect of accounting changes and the adjustment to minority interest for the consolidating impact of Enlight Holdings, LLC ("eAdvisor") on restructuring and other exit activity and tax expense. Ongoing operating margin excludes, in addition to the above, corporate interest income, corporate interest expense, equity in income of investments and other non-operating items. Management believes this measure to be appropriate in determining the operating performance of the Company's core business on an ongoing basis and represents the measure used by analysts and the investment community historically to evaluate company performance. With respect to 2003 guidance, the difference between earnings per share from ongoing operations and reported earnings estimates is based on the historical relationship between the two measures. The Company has determined that the use of historical relationships will likely provide the most accurate estimate of reported earnings rather than forecasting each of the components not included in calculating earnings from ongoing operations. These components are subject largely to changes in external events, a number of which are beyond the control of management, and are therefore difficult to predict with appropriate accuracy.

⁽²⁾*Free Cash, EBITDA, Interest Coverage*

Free cash as defined by the Company represents cash held at the parent and excess regulatory capital at Bank and Brokerage, and is a metric used by management to measure business performance and liquidity.

Additionally, management utilizes EBITDA and interest coverage to measure business performance. EBITDA is defined as net income (loss) before corporate interest expense, taxes, depreciation & amortization, and cumulative effect of accounting changes. Interest coverage is defined as EBITDA divided by corporate interest expense.

It is important to note these metrics and non-GAAP measures should be considered in addition to, not as a substitute for, or superior to, net income, operating margin, consolidated statements of cash flows, or other measures of financial performance prepared in accordance with GAAP. (3) Amounts and percentages may not calculate due to rounding.

(4) Eliminates intercompany payment made by Bank to Brokerage related to Sweep Deposit Account (SDA) relationships, swept daily from Brokerage to Bank. Under this relationship, Bank pays Brokerage a negotiated rate that approximates market on the average SDA balance. Bank reflects this payment as selling and marketing expense and Brokerage reflects this payment as other revenues.

(5) Included in general and administrative for the quarter ended September 30, 2003, is a \$6 million charge related to a litigation settlement in the Banking Segment related to employee overtime and for the quarter ended June 30, 2003, is a \$7 million MJK litigation reserve in the Brokerage Segment.

(6) Effective June 30, 2003, brokerage accounts are considered active if the account has a positive asset balance of at least \$25 at the end of the quarter, as compared to prior periods in which an active account was defined as an account with a positive balance, or if a trade has been made in the account in the past six months or if the account was opened in connection with a corporate employee stock benefit program. Inactive account figures for the quarter ended June 30, 2003, include those accounts no longer included in the definition of active accounts as revised in the quarter ended June 30, 2003. Prior periods were not restated to reflect the change in definition. Customers may have separate or multiple accounts for each relationship they maintain with the Company, including separate or multiple brokerage and banking accounts. Bank deposit accounts are considered active if a customer account was initially funded and the account is not considered abandoned or dormant under applicable Federal and State laws, or the account has not been closed. Bank loan accounts included in active banking accounts are considered active if the account has not been closed. Bank loan accounts included in active banking accounts are considered active if the account has incurred a debit or credit in the prior month.

(7) Q3'03 estimate

(8) Amount includes a taxable equivalent increase in interest income of \$560,000 for the quarter ended September 30, 2003, and none for the quarter ended September 30, 2002.
